All rates are according to: Electric Utility Bylaw 3873, Gas Utility Bylaw 3871, Water Services Bylaw 3888, Sewer Bylaw 3830, Solid Waste Bylaw 3877

# Understanding Your Utility Statement Charges

The Utility Statement provides a summary section with the total charge for each service, as well as a detailed section that breaks out each Utility's charges.

## Service Charge (All Utilities):

A monthly charge associated with providing and maintaining utility service to a location. This charge includes installation and maintenance of wires, transformers, pipes, property taxes, buildings, vehicles and staff.

## Energy Conservation Charge (Electric and Gas):

Additional charge in excess of 950 kWhs and/or 22GJ used per month. The money generated from the Energy Conservation Charge will be put into the City's Developing with Nature's Best Reserve Account to fund renewable / alternative energy, resource conservation and education projects / programs.

## ELECTRIC UTILITY

### Administration Charge:

Covers costs of administering customer accounts including meter reading, billing, customer collections and customer inquiries. Also includes the cost of energy lost in distribution system lines.

### Energy Charge:

This charge covers the value of electricity used by the customer measured in kilowatt hours (kWh's).

### Facilities Usage (per kWh):

Customers are charged a fee for accessing the infrastructure or equipment of the Electric Utility to have electricity delivered. This charge covers the cost of emergency call-outs, facility and wire repairs, unscheduled maintenance of customer meters, customer locates, vehicle fuel and maintenance costs.

### System Access Charge:

Covers the cost of accessing the provincial grid.

### Going Green:

Monthly fee for the purchase of wind generated electricity.

### Kilowatt Hour (kWh):

A quantitative measure of electric current flow equivalent to 1,000 watts being used continuously for a period of one hour.

## ENVIRONMENTAL UTILITY

### Commodity Charge:

This charge covers the value of water used by the customer measured in cubic metres (cu mtrs).

### Recycling (Waste Minimization/Diversion):

Covers costs that are associated with waste diversion programs, (drop-off recycling, yard waste recycling, electronic waste recycling and household hazardous waste recycling). The fee also helps to fund new recycling opportunities for waste diversion innovation as well as other new strategic plan activities.

### Cubic Metres (cu mtrs):

A metric unit of volume or capacity equal to 1000 litres.

## GAS UTILITY

### Administration Charge:

Covers costs of administering customer accounts including billing, customer collections and customer inquiries. Also includes the cost of getting the gas (transportation fees) to the City's local distribution system and fees for gas storage.

### What are gas transportation fees?

These fees are to get the gas from where it originates (this can be hundreds of kilometres away from the City of Medicine Hat) to the City's distribution system (pipes).

### What are gas storage fees:

These are costs for the City to use a storage facility near Jenner, Alberta. In the summer months the City puts gas into storage to be saved for use in the winter months by our gas customers.

**Commodity Charge:** This charge covers the value of the natural gas used by a customer measured in gigajoules (GJ).

### Delivery Charge (per GJ):

Covers costs of emergency call-outs, facility and pipeline repairs, unscheduled maintenance of customer meters, customer locates, maintenance of odorant facilities, vehicle fuel and maintenance costs.

### Alberta Natural Gas Rebate:

A rebate that may be applied to all eligible gas consumers during the winter months of October to March.

### Gigajoule (GJ):

One gigajoule (GJ) equals one billion joules (J). A gigajoule of natural gas is about 25.5 cubic metres at standard conditions. One gigajoule of natural gas is equal to 27 litres of fuel oil, 39 litres of propane, 26 litres of gasoline or 277 kilowatt hours of electricity.
