**FOR IMMEDIATE RELEASE**  
**JUNE 30, 2005**

## **CITY UPGRADES STRACHAN ROAD**

*Provides for future residential and commercial development in Southlands*

**MEDICINE HAT** – City of Medicine Hat Land and Properties is upgrading Strachan Road this summer to accommodate future residential and commercial development in Southlands.

The project is scheduled to start on Monday, July 4, 2005 and will last for approximately 9-10 weeks depending on weather conditions.

The project involves adding two lanes along the south side of Strachan Road from west of WalMart and Home Depot to the west exit/entrance to Strachan Court. A median will be installed to separate the traffic flows.

In addition, a new set of traffic signals will be installed at the east entrance to Strachan Court and Strachan Road. The upgrading is a continuation of the 2004 construction required for the Home Depot project.

During the construction, a temporary gravel road surface will be used for east bound traffic. One lane of traffic in each direction will be kept operational at all times.
