

**FOR IMMEDIATE RELEASE  
DECEMBER 14, 2005**

## **NEW TRAFFIC SIGNALS FUNCTIONING *10<sup>TH</sup> Avenue and Highway #3 Intersection***

**Medicine Hat** – The 10th Avenue reconstruction project, for the most-part, has been substantially completed. The new traffic signals for the intersection are installed and functioning.

“Signalization of this intersection by the end of the 2005 construction season was a commitment by the City of Medicine Hat, Municipal Work’s Department to the public” says Alan Reynolds, Project Manager.

Due to winter weather conditions, outstanding work will be completed in the spring of 2006, such as landscape restoration, fence relocation, line painting, minor concrete work and repairs and general site clean-up.
