Temporary One Lane Bridge over Industrial Avenue

Medicine Hat – A temporary one lane bridge has now been erected on Industrial Avenue to the 41A Highway, and will open on Thursday, July 15 at 1 p.m.

As part of this bridge's design, and in order to open the bridge as soon as possible, continuing maintenance will be required. The Municipal Works Department will be monitoring the site on an ongoing basis and making field adjustments as needed to ensure that the temporary bridge remains fully operational. Minor roadwork can also be expected during the next several months.

The roadways surrounding the bridge will be posted at a speed limit of 30 kilometres per hour with the bridge itself posted at 20 kilometres per hour. Temporary traffic lights are in place to facilitate the movement of vehicles on this one lane bridge.

Residents are reminded to obey all posted speeds and traffic control devices in the area.
